# SHAPING THE ADVISORY STAKEHOLDER FORUM

Inge Van Nieuwerburgh – Ghent University

# INTERESTS

OpenAIRE: service provider

EUA expert group on Open Science: research community

CESAER: research community

VLIR: Flemish Universities

Open knowledge Belgium: general interested public

Open Access Belgium: local Open Science interest

# EOSC AND ITS MISSION

“storage, management, analysis and re-use of research data,  
across borders and scientific disciplines.”

Open science is more than data: stages of scientific knowledge production, sharing and dissemination. Support through the research cycle, incl methodologies, procedures, publications, models, ...

Focus on non-profit, control should be non-profit  
Open, FAIR, transparent

**Open in a FAIR way**

## HOW TO SELECT MEMBERS AND MAKE IT WORK?

“be driven by **the scientific community**, most advanced users and the largest producers of science “

RPO, researchers, (e-)infrastructures, libraries and their associations at the center

Don't just focus on the technical aspect, big human factor, cultural factor

## KEY RESPONSIBILITIES OF AN EOSC ADVISORY STAKEHOLDER BODY

- Keep an eye on the goal, research at the center
- Learn and listen: Compromise
- Connect communities, e-infra
- Keep focus on open, sharing: FAIR
- Decisions on options
